

## "I've Got the Power!" Now What?

*By Jelani Greenidge, p. 56*

### **How can the church practice a better way to use power?**

1. What is the most powerful job or position you have ever held?
2. Why do you think it is uncomfortable for some people to talk about power?
3. Greenidge says that the "wielding of power happens in small, subtle ways that are easy to overlook." What examples can you think of that support this statement?
4. How might power be more difficult to balance in the church than in secular contexts?
5. What does it mean to "prioritize the preservation of our institutions and their resources over the well-being of the people God calls us to serve"?
